RAIYAN RAB

O: (404) -398-2090 C: 404-398-2090 raiyan@numarix.com

Property Features:

- 96 Studio / 4 L Studio
- 8 Studio XL (450 sqft)
- 5 1+1 W/D (600 sqft)
- Furnished
- Free Wi-Fi
- Cable TV
- Pet Friendly
- Outtdoor Pet Washing Station
- Minutes from Alabama Splash Adcventure Park

Location Highlights:

- 1. Interstate Access Positioned directly off Interstate 20/59, providing seamless connectivity to Bessemer, Birmingham, and the wider metropolitan region.
- 2. Proximity to Downtowns Approximately 3 miles from Downtown Bessemer and 15 miles from Downtown Birmingham, the state's largest urban center.
- 3. Nearby Attractions Within 2 miles of Alabama Adventure & Splash Adventure amusement and water park, and 3 miles from the Bessemer Civic Center.
- 4. Retail & Entertainment About 6 miles from Tannehill Promenade, a major shopping and dining destination, and 12 miles from Tannehill Ironworks Historical State Park.
- 5. Educational & Medical Access Roughly 16 miles to the University of Alabama at Birmingham and UAB Hospital, one of Alabama's leading healthcare and research institutions.
- 6. Regional Connectivity Approximately 10 miles from Hoover, one of Birmingham's fastest-growing suburban markets.
- 7. Airport Access Birmingham-Shuttlesworth International Airport is located 22 miles northeast, offering both national and international air service.

Bessemer, Alabama is actively working to drive economic growth and sales by leveraging its strengths in logistics, industrial development, and urban revitalization. The city is focused on creating a business-friendly environment to attract new companies and improve its appeal to residents and visitors. Here are some key developments that could drive sales for businesses in the area:

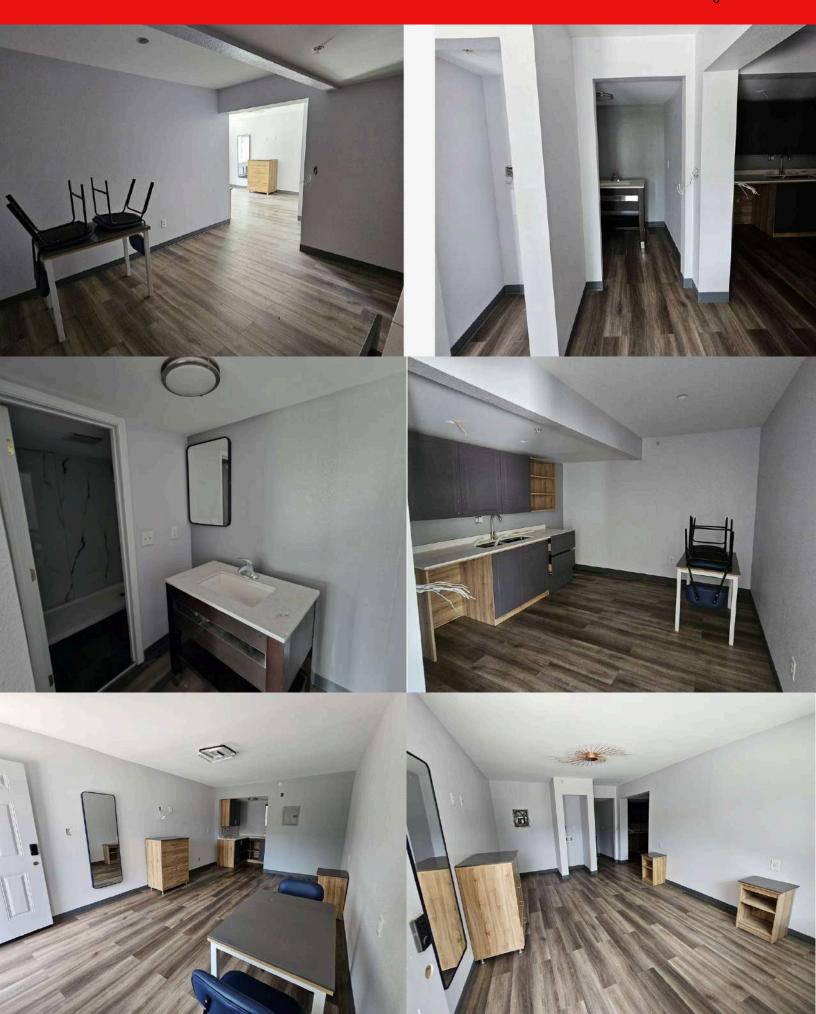

The Monarch in Bessemer, Alabama is strategically positioned right off Interstate 20/59, providing direct access to Birmingham and the greater metropolitan area. The property is located approximately 3 miles from Downtown Bessemer and just 15 miles southwest of Downtown Birmingham, a major business, medical, and cultural hub. Notable nearby landmarks include the Alabama Adventure & Splash Adventure amusement and water park, located only 2 miles away, and Bessemer Civic Center at 3 miles. The University of Alabama at Birmingham and UAB Hospital, one of the state's largest medical complexes, are within 16 miles. Retail and dining options are abundant at Tannehill Promenade, about 6 miles from the property, while Tannehill Ironworks Historical State Park, a popular regional attraction, is situated approximately 12 miles away. The property also benefits from proximity to Hoover, one of Birmingham's most dynamic suburban markets, just 10 miles northeast. The nearest airport is Birmingham-Shuttlesworth International Airport, located about 22 miles northeast, providing national and international flight service. With its excellent interstate visibility, proximity to Birmingham, and strong surrounding commercial and recreational anchors, The Monarch presents a compelling investment opportunity in the growing Birmingham–Bessemer corridor.

Bessemer, Alabama is actively working to drive economic growth and sales by leveraging its strengths in logistics, industrial development, and urban revitalization. The city is focused on creating a business-friendly environment to attract new companies and improve its appeal to residents and visitors. Here are some key developments that could drive sales for businesses in the area:

- Industrial and Logistics Growth: Bessemer is a hub for industrial development, particularly in logistics and distribution. Companies like Amazon, Lowe's, and FedEx have established major facilities here, bringing a significant number of jobs to the area. This growth creates a direct need for business-to-business sales in sectors like industrial supplies, equipment, and transportation services. It also drives retail sales, as new employees and their families move to the area.
- Residential Development: The city is seeing a push for more and better housing. The Bessemer
 Redevelopment Corporation is a nonprofit focused on bringing new investments and modern,
 affordable housing to neighborhoods like the Northside. This type of residential development directly
 impacts sales for local retail, grocery stores, and service businesses as the population and spending
 power of the city increase.
- Downtown Revitalization: Bessemer is committed to revitalizing its downtown, with a "Vision 2040" plan
 to make it a more livable and inviting place. The city is working to redevelop historic properties, such as
 the former City Hall, into mixed-use residential and commercial spaces. A more vibrant downtown with
 new apartments, restaurants, and shops will attract more people, driving sales for all businesses in the
 area.
- New Commercial Projects: There are a number of smaller-scale commercial projects in the works across
 the city. The development of new commercial spaces, such as those on Morgan Road, will provide
 opportunities for new businesses to locate in Bessemer and serve its growing population.

1,169

12.6%

-0.4%

Demand in Birmingham has been steady as net absorption has been mostly positive since the start of 2023. Over the past 12 months, net absorption has totaled 1,200 units. That level of demand aligns with the market's 10-year annual average of 570 units.

Construction activity remains elevated, and despite absorption gaining momentum, the steady demand will struggle to keep up with construction activity in the near term. Over the past year, multifamily demand has not matched the abundance of new deliveries in the market. As a result, vacancies remain elevated, though the rate has fallen from its peak during mid-2024.

With about 1,100 units delivered over the past year and another 1,400 under construction, the rate will likely increase for the rest of 2025. When they deliver, the properties under construction will expand Birmingham's existing multifamily inventory by 2.5%. The metro's two largest submarkets, Downtown Birmingham and the Hoover/Vestavia Hills, continue to be very active, with about 750 units under construction. Also notable is Jefferson County with 380 units under construction, which is equal to 4% of the submarket's total inventory.

Birmingham's vacancy rate has risen for several quarters in a row as robust construction activity continues to outpace demand. While demand in Birmingham should stay positive, it will likely not keep pace with the abundant new supply that will be delivered over the next few quarters, keeping vacancy rates elevated. The rate currently sits at 12.6%, far above the national average of 7.8%, and is the highest it's been in over 25 years.

Examining the stabilized rate, which sits at about 8%, shows that the elevated demand is helping temper vacancy rates within the older multifamily stock. Nonetheless, both are being affected by the evergrowing number of options that renters have, particularly in areas of higher development activity such as Downtown Birmingham and Hoover/Vestavia Hills.

After a period of stabilization, year-over-year rent growth has started to decline once again. Annual growth has been declining since the start of 2022 after peaking at 9.0%. It has since declined to just -0.4% growth, mainly due to the oversaturation of new units in the market, causing a high level of competition for leasing. Birmingham's average asking rent of \$1,260/month sits far below the national average of \$1,770/month.

Birmingham's multifamily sales volume has been increasing since the start of 2024. It totaled \$428 million over the past 12 months, which aligns with the historical average. The market's cap rates have also started to level off, as strong demand is expected to continue due to steady demand and slowing construction.

KEY INDICATORS

| Current Quarter | Units | Vacancy Rate | Asking Rent | Effective Rent | Absorption Units | Delivered Units | Under Constr Units |
|-----------------|--------|--------------|-------------|----------------|---------------------|-----------------|-----------------------|
| 4 & 5 Star | 15,843 | 12.2% | \$1,681 | \$1,654 | 708 | 294 | 1,191 |
| 3 Star | 30,545 | 12.3% | \$1,188 | \$1,176 | 90 | 310 | 227 |
| 1 & 2 Star | 20,987 | 13.5% | \$985 | \$979 | (59) | 0 | 0 |
| Market | 67,375 | 12.6% | \$1,264 | \$1,250 | 739 | 604 | 1,418 |

| Annual Trends | 12 Month | Historical Average | Forecast Average | Peak | When | Trough | When |
|-----------------------|-------------|-----------------------|---------------------|--------|---------|---------|---------|
| Vacancy | -0.1% (YOY) | 9.4% | 12.6% | 13.0% | 2025 Q2 | 7.8% | 2006 Q1 |
| Absorption Units | 1,169 | 513 | 739 | 1,720 | 2021 Q2 | (1,190) | 2023 Q2 |
| Delivered Units | 1,450 | 697 | 801 | 1,939 | 2016 Q3 | 0 | 2018 Q4 |
| Demolished Units | 145 | 25 | 33 | 275 | 2013 Q3 | 0 | 2024 Q3 |
| Asking Rent Growth | -0.4% | 1.8% | 2.2% | 9.0% | 2022 Q1 | -3.2% | 2009 Q4 |
| Effective Rent Growth | -0.2% | 1.8% | 2.2% | 9.2% | 2022 Q1 | -3.2% | 2009 Q4 |
| Sales Volume | \$428M | \$381.1M | N/A | \$1.2B | 2022 Q3 | \$315K | 2006 Q2 |

Since the start of 2023, Birmingham has delivered far more new units than the market's steady demand can keep up with. Thus, vacancy sits at it's highest rate in over 25 years.

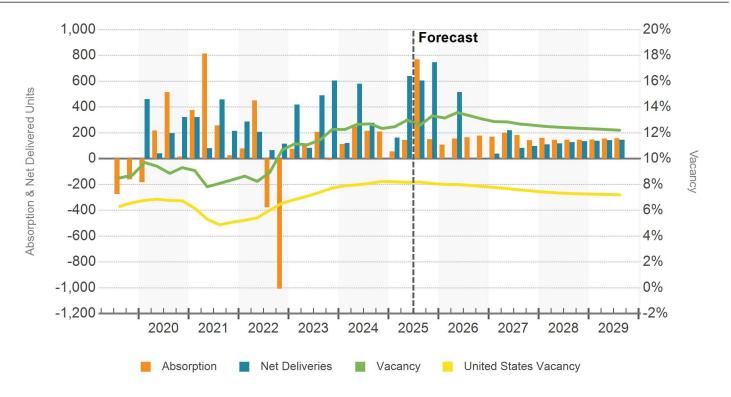

Birmingham's current vacancy rate is 12.6%, which remains well above the national average of 8.2% despite the annual net absorption of 1,200 units, which aligns with the market's 10-year average.

The multifamily vacancy rate in Birmingham has risen modestly over the past couple of years as demand has not kept pace with new supply in the market. After stabilizing during the back half of 2024, vacancy has ticked upward over the past couple of quarters. A slew of new units delivering through the end of 2025 and start of 2026 will likely keep the rate elevated over the near term.

Net absorption in Birmingham has been consistently positive since the beginning of 2023, following a pair of quarters of negative net absorption in the second half of 2022. Vacancy has remained elevated in Birmingham's two largest submarkets by inventory, Downtown and Hoover/Vestavia Hills. A pair of close-in suburbs, Shelby County and Jefferson County, are enjoying the metro's lowest rates. However, almost 600 units are currently under construction in the two suburban areas, which will likely raise the levels in the near term.

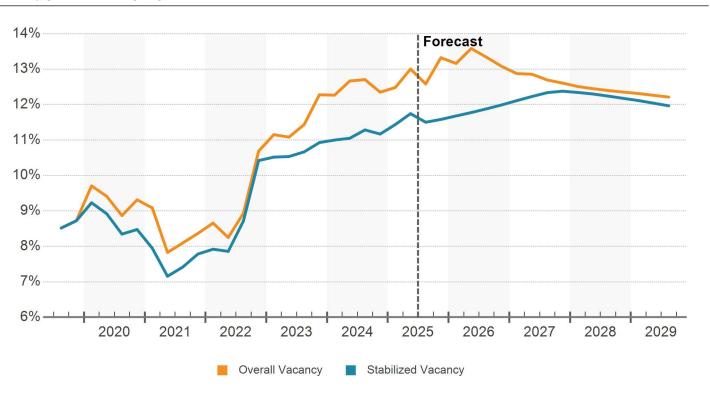

The vacancies have been highest in properties rated 4 & 5 Star, which have a 12.2% vacancy rate. With more new units being constructed than the region has ever seen, competition for leases has never been higher. By contrast, the 3-star properties have the lowest vacancy rates, over 200 basis points lower.

ABSORPTION, NET DELIVERIES & VACANCY

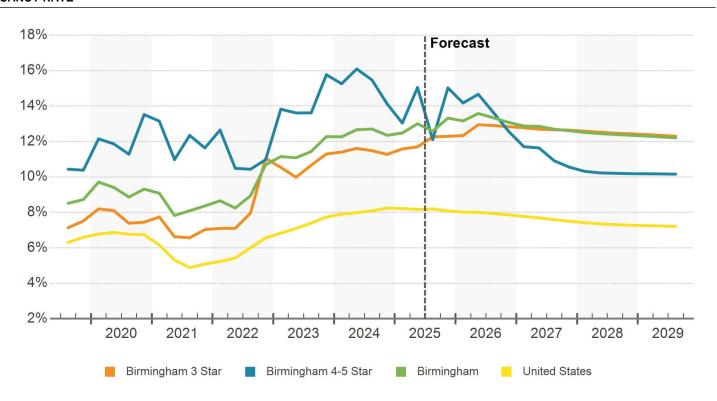

OVERALL & STABILIZED VACANCY

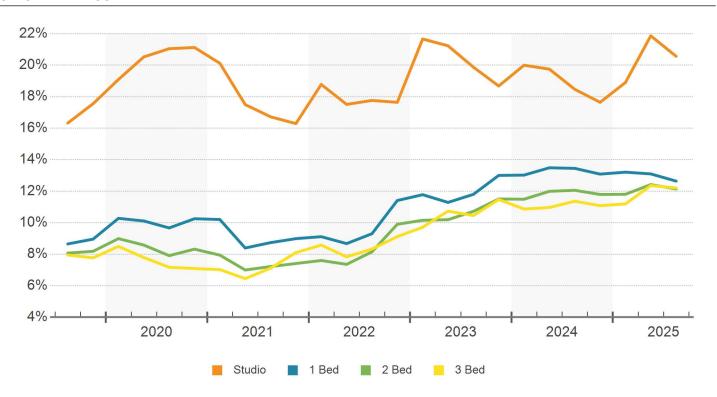

VACANCY RATE

VACANCY BY BEDROOM

One reason for the steady demand is that the market remains a bargain, as the average asking rent in Birmingham is \$1,260/month. This is a significant discount to the national average of \$1,770/month and the average in large Southeastern markets like Atlanta, Nashville, and Charlotte, where rents are \$1,680/month or more. Birmingham rents are slightly below those in Huntsville but higher than those in Mobile and Montgomery.

Thanks to the elevated construction activity outpacing demand, competition to lease units has been feverish. Even brand-new units have been offering robust concessions in order to fill the available units. The spread in asking rents and effective rents became wider in early 2022, though the current concession rate of 1.2% of asking rents has decreased somewhat during 2025.

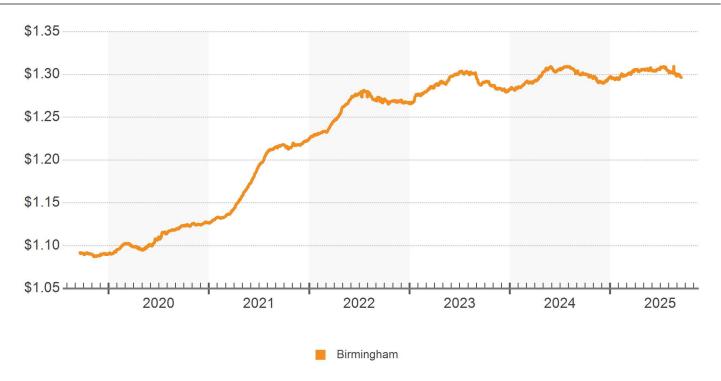

With over 1,000 units set to deliver throughout 2025, vacancy may not continue to decrease in the near term. With rent growth following vacancy, growth may remain

steady or even decrease throughout the rest of 2025. Looking to the future, construction will slow, which will mean that the market will be able to catch up to the construction activity, and rents can continue to increase.

Because Birmingham is cheaper than larger Southeastern markets, residents can rent a higher-quality apartment for the same price as an average unit in those markets. Properties rated 4 & 5 Star in Birmingham have an average rental rate of \$1,680/month, similar to the overall average asking rent in Atlanta, Nashville, or Charlotte. Birmingham's lower costs may serve the market well in the coming years by helping attract corporations and individuals priced out of the larger regional markets.

Among Birmingham submarkets, the Cahaba Heights submarket has the most expensive asking rents, averaging over \$1,600/month. In contrast, St. Clair County has the most affordable among submarkets with at least 1,000 units of inventory. Rents there are \$1,210 per month.

Expenses are estimated using NCREIF, IREM, and CoStar data using the narrowest possible geographical definition from Zip Code to region.

Multifamily construction activity remains high in Birmingham. Net deliveries in the market have totaled 1,300 units over the past year, outpacing Birmingham's 10-year annual average of 820 units. The robust activity has given the market much greater new supply than even the steady demand can keep up with.

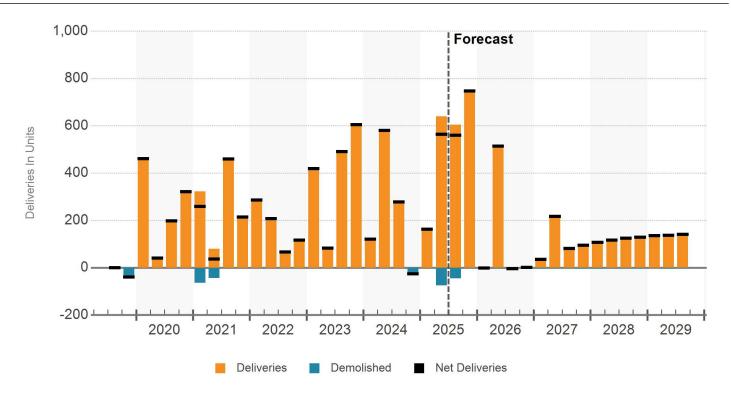

While construction activity remains robust, it does show signs of slowing, which is a positive sign for owners looking to return to increasing rents. The market's construction pipeline has declined from last year's peak of about 3,100 to the current level of 1,400 units, which is still above the market's historical level. Additionally, construction starts have slowed, however about 1,000 units have broken ground since late 2024 which is the most in a number of years. Still, the current number of units under construction is the lowest amount in several years.

New green spaces and significant governmentsponsored projects, such as the Birmingham Railroad Park and Birmingham New Street Station, have also encouraged development in Downtown Birmingham. Projects like 20 Midtown Apartments, The Palmer Parkside, and Cortland Vesta have capitalized on these neighborhood improvements and are charging some of the highest rents in Birmingham at more than \$2/SF.

The Highway 280 corridor is a hotbed for development, especially in the area of the Highway 119 corridor. Apartments, build-to-rent homes and more are popping up in the vicinity from multiple companies. EBSCO Industries Inc. just finished The Whitby at 119 at the intersection with Brook Highland Parkway and will finish development on the Tattersall Park site. The proposed expansion would place at least 307 residential units, as well as a hotel and retail establishment on its 18 acres.

Hoover/Vestavia Hills and Downtown Birmingham have the most units under construction. Downtown has abundant vacant office and industrial space ripe for conversion to multifamily. A decade ago, the passing of a historic tax credit program led to significant work on the Pizitz building, the Redmont Hotel, and the Lyric Theatre, which has revitalized downtown. Birmingham's relatively robust pipeline will continue adding supply-side pressure to its vacancy rate in the near term. However, activity will likely ease headed into 2026, helping occupancy.

Much like sales volume and rent growth, the total number of sales has remained robust. Multifamily sales experienced reduced deal flow through much of 2023 and the start of 2024 due to high interest rates, low rent growth, and wide bid-ask spreads. However, thanks to a robust first quarter of 2025, Birmingham's annual multifamily sales volume has been robust. It totaled \$428 million over the past 12 months, which aligns with the historical average.

Multifamily properties in Birmingham have sold for an average of \$120,000/unit, well below the national average of \$210,000/unit. Market cap rates have generally followed the national trend of increasing since early 2022; however, they have recently stabilized and even fallen over the past couple of quarters. Current rates are about 6.9%, about 50-100 basis points higher than the national average.

ECA Village LLC has acquired a distressed apartment property in northeast Birmingham for \$13.4 million, or \$53,600 per door, at the end of June. The buyer is associated with multifamily investment firm Emerald City Associates (ECA), based in Raleigh, North Carolina. The previous owners were three companies associated with New York City-based development firm Arch Companies, which acquired Village Square Landings and two other apartment complexes in Birmingham for \$36.5 million in 2022.

One of the region's largest apartment communities was sold earlier in 2025. Public REIT Independence Realty Trust Inc. sold the 720-unit multifamily community Ridge Crossing to Canada-based Private RWEIT Avenue Living for \$111,000,000 or \$154,000 per unit. The property was originally built in the early 1990s but renovated in 2015.

Economy

Birmingham Multi-Family

The Birmingham MSA is the largest in Alabama, with over 1.1 million residents, a population that is more than double that of the next largest metro. The population base declined sharply from 2008 to 2010, but has slowly gained since and is back close to the pre-Great Recession level.

The area has a diverse economic base, with significant financial, trade, government, and industrial-using sectors. Anchored by the corporate headquarters of Regions Financial, Blue Cross-BlueShield of Alabama, and Protective Life, Birmingham maintains an outsized concentration of jobs within financial services.

Total employment in Birmingham is over 575,000, and the region's robust manufacturing base should serve it well in the long term as companies are re-evaluating their supply chains and are looking to move manufacturing operations back to the U.S. Over the past year, manufacturing employment has steadily grown within the MSA.

Alabama is also an established center for automobile suppliers and manufacturers. Nearly a fifth of the state's GDP comes from the manufacturing sector. The Greater Birmingham Region has attracted over \$725 million in capital investment from mobility companies since 2018,

resulting in the creation of 2,200+ jobs.

Alabama's largest public employer and home of one of the region's largest academic medical centers, the University of Alabama at Birmingham (UAB) employs more than 28,000 people across its university and hospital entities, has more than 23,000 enrolled students, and has an annual economic impact exceeding \$12.1 billion on the state. Other notable employers in the area include Regions Financial, Honda, Publix, and Brookwood Baptist Health.

Birmingham also has sizable government employment, which provides the region with a stable economic foundation. In addition, employment growth in the logistics sector has helped boost the Birmingham economy over the past few years.

Mercedes-Benz has been focused on growing talent and investment within the region. The state of Alabama has become the sole producer of electric vehicles for Mercedes worldwide. The company has partnered with the University of Alabama and Alabama Power to create a hub for research and workforce development. This collaboration focuses on developing mobility and power technologies, charging infrastructure, and managing power for electric vehicles.
